WORLD MARCH OF WOMEN -Membership form-

To: International Secretariat, World March of Women

The World March of Women is an international feminist action movement connecting grass-roots groups and organizations working to eliminate the causes at the root of poverty and violence against women. We struggle against all forms of inequality and discrimination directed at women. Our values and actions are directed at making political, economic and social change. They centre on the globalization of solidarity; equality between women and men, among women themselves and between peoples; the respect and recognition of diversity among women; the multiplicity of our strategies; the appreciation of women's leadership; and the strength of alliances among women and with other progressive social movements.

We agree with the values and objectives of the March and we want to be part of this project. Here is where we can be reached:
